

Groundwater User Program

Dear Santa Rosa Plain Groundwater User:

Groundwater in the Santa Rosa Plain is an important shared resource. A new state law requires that communities protect their groundwater to make sure it's clean and available for all users today and in the future.

To comply with this state law, the Santa Rosa Plain Groundwater Sustainability Agency (GSA) was formed in June 2017. In July 2019, the GSA adopted a structure to determine fees to fund the work of the GSA.

IMPORTANT! While you are not currently required to pay a fee, you may be in the future. We have made assumptions and estimates of wells and groundwater use for all parcels in the Santa Rosa Plain. Future fees will be calculated using the estimated data.

To view and confirm or correct your information, visit:

www.santarosaplaingroundwater.org/user or contact the GSA, Permit Sonoma, or Sonoma County Agricultural Commissioner's office.

For more information about the GSA visit: <http://santarosaplaingroundwater.org>
